

1. MICRO magdolna

Booklet of dreams and stickers.

2. Pneuma Szöv. - Mókus Maxi

“Trust instead of surveillance!” video and Macky Squirrel’s golden campaign car.

3. Aurora

Modular furniture: With the help of interior designer, Csinszka Cserháti, and a dozen volunteers, we built wooden modular cubes, which in a Lego-like fashion can be transformed into anything from a chair to a DJ booth. Despite its simplicity, the furniture represents values important to us: we know how many volunteers helped in assembling, and we know how many exciting programs it already enabled. For us, it’s the epitome of multifunctionality and participatory work.

4. Uccu Roma Informal Educational Foundation

Archive photos of the 8th district: We use these during our walking tours in order to bring to life the neighborhood’s distant past.

5. Gólya Community Place and Cooperative Pub

Lost and found box: Please place any unwanted items – or rather ones that you’re bound to lose anyway – in the box. (Alternatively, if you haven’t brought enough warm clothes, feel free to look through it!)

6. School of Public Life
